GLOBAL STANDARDS OF EXCELLENCE

RANKING & RECOGNITION

A LEGACY OF UNMATCHED EXCELLENCE

13 Consecutive Years of Top Ratings in SETARA & MyQUEST

SEGi upholds the highest standards in designing and delivering a transformative learning experience. Our performance in SETARA and MyQuest over the last 13 years is unmatched in Malaysia as all our campuses consistently bag high ratings every term.

The Ministry of Higher Education uses the SETARA instrument and MyQuest system to rank Malaysian higher education institutions. Together with the Malaysian Qualifications Agency (MQA), they regulate all programmes, operating licences, and teaching permits in Malaysia.

Developed under the Malaysian Education Blueprint 2015-2025 for Higher Education, the Malaysian Higher Education Institutions Integrated Rating (SETARA) employs a rigorous assessment methodology to rate institutions on three core functions: teaching, research, and services.

The Malaysian Quality Evaluation System for Private Colleges (MyQuest) was an instrument developed by the Ministry of Higher Education in 2009 to evaluate the performance of private colleges in Malaysia. It aims to encourage quality improvements by assessing five core criteria: student profile, programme recognition, graduate recognition, quality of resources, and soundness of governance.

SCALING NEW HEIGHTS SEGi UNIVERSITY

AT #61 in Southeast Asia

QS Asia University Rankings | 2023

SEGi University is ranked 61st in the QS Asian University Rankings for Southeast Asia.

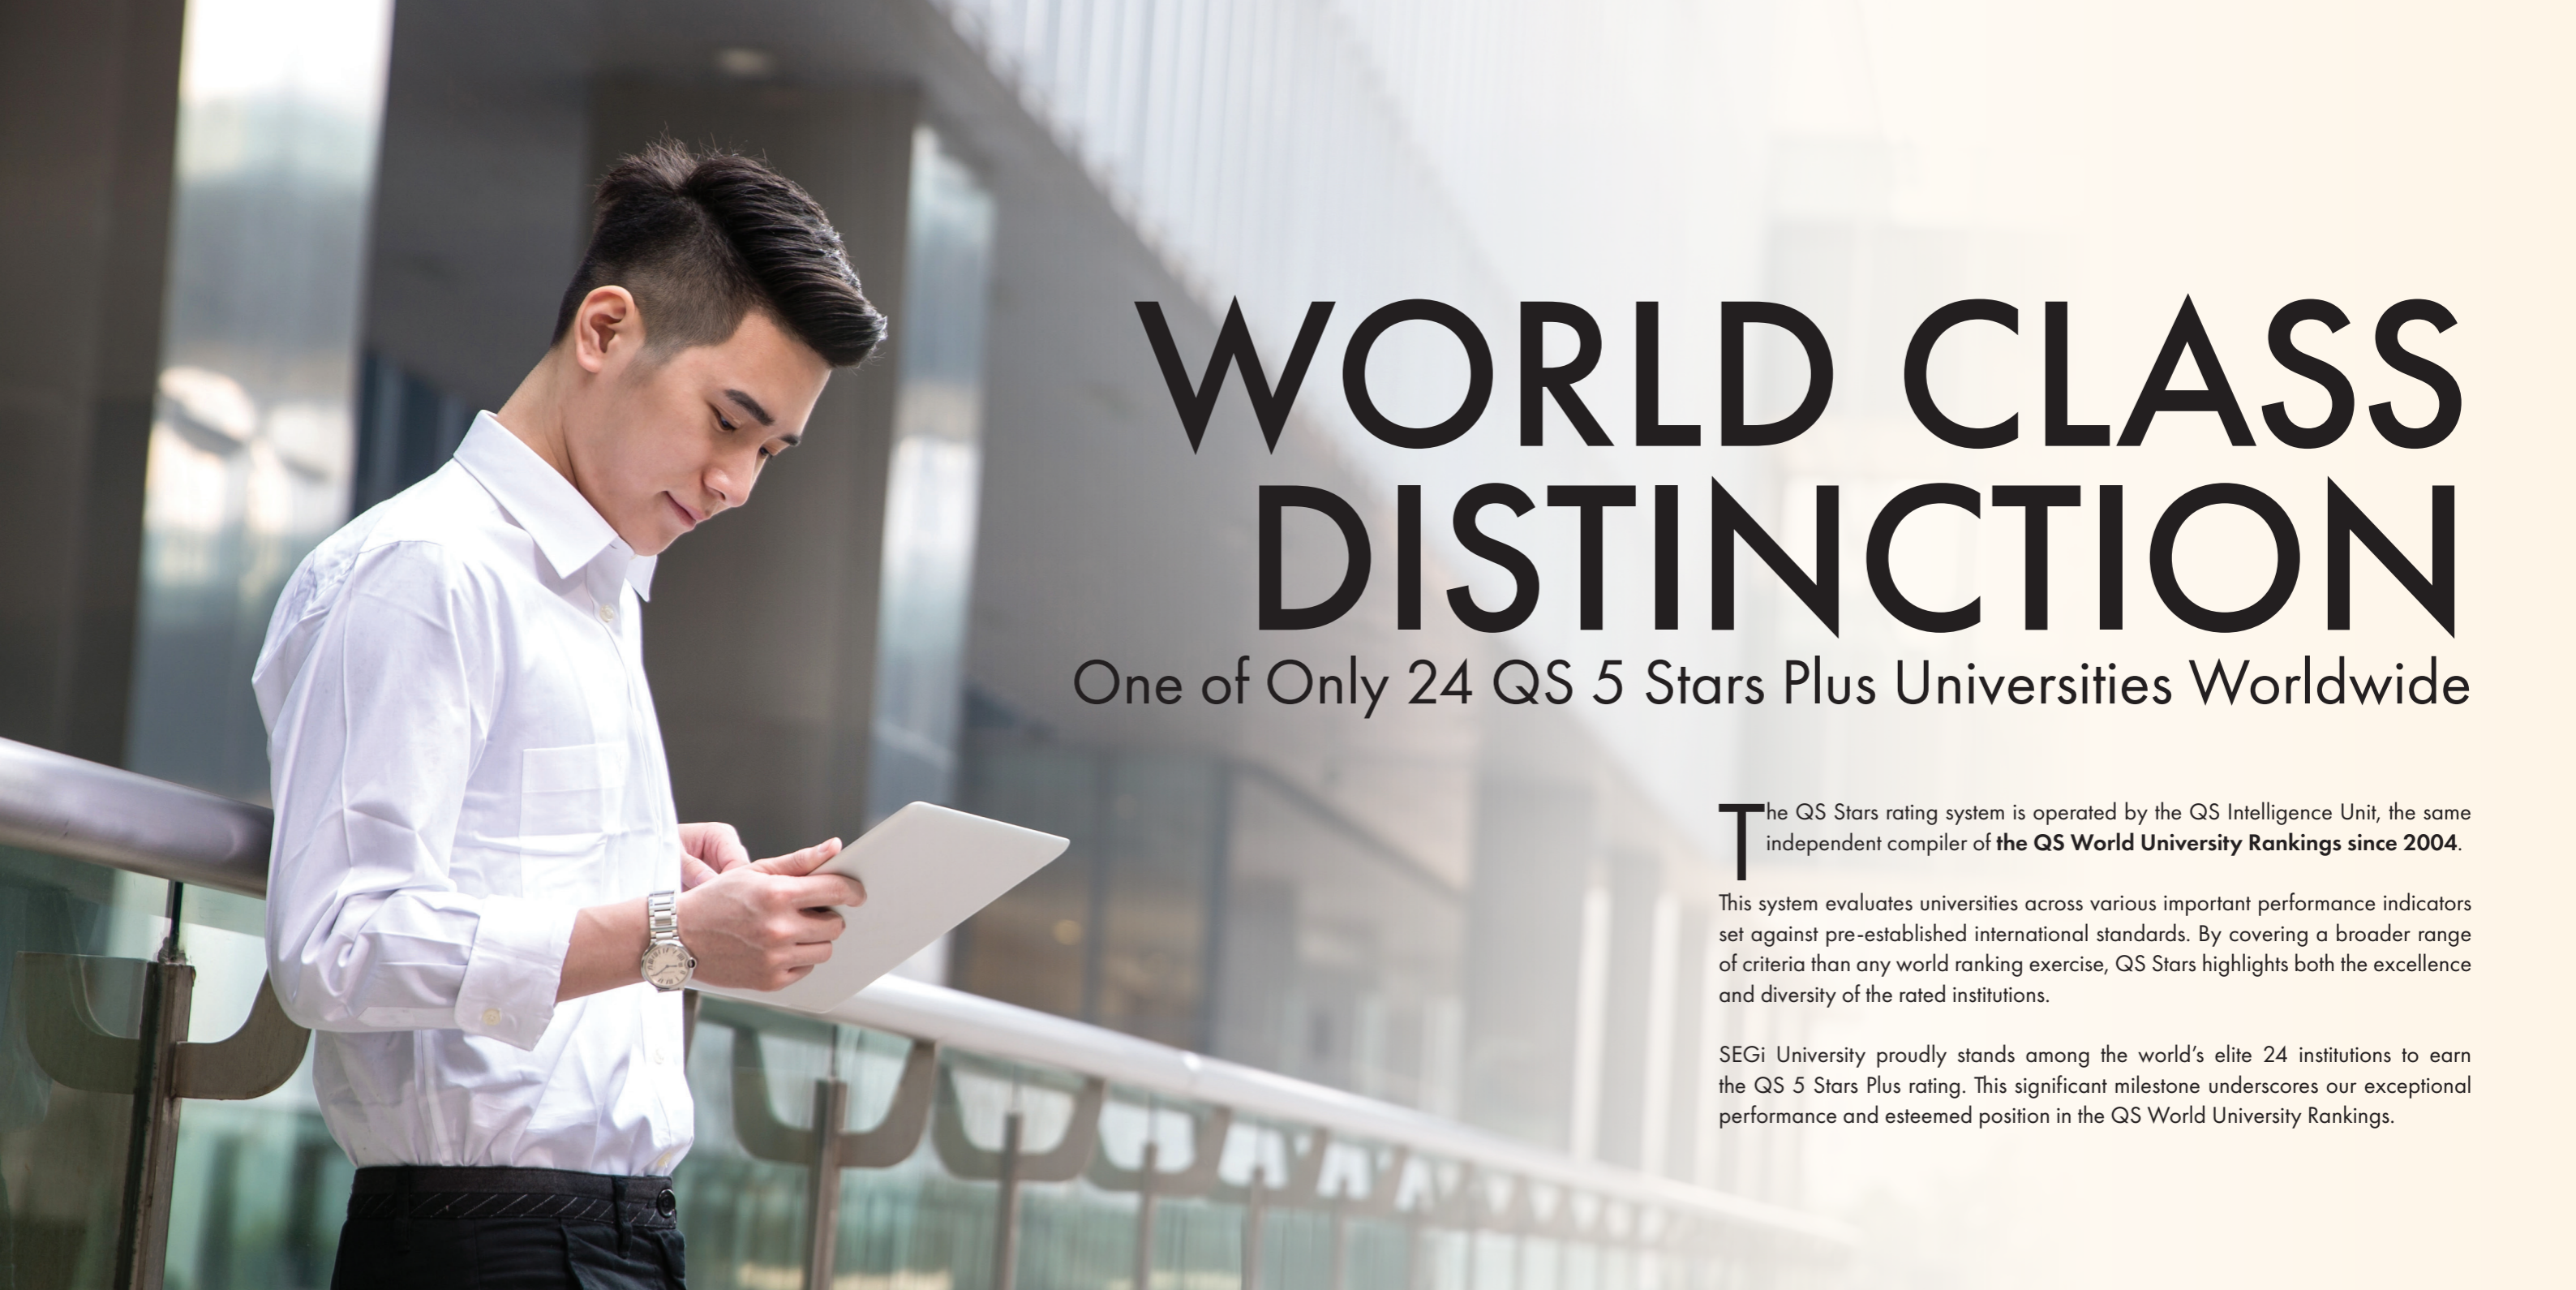

Despite our recent entry into the rankings just two years ago, we have achieved outstanding results. The QS World University Rankings conventionally analyse data spanning the preceding five years, underscoring the significance of our rapid ascent.

Our triumphs in the **QS Asian University Rankings** and the **QS 5 Stars PLUS Ratings System** place us on an accelerated path to securing a spot in the QS World University Rankings within the next three years.

Locally, SEGi University consistently earns top ratings from the **SETARA Rating System by the Ministry of Higher Education**, standing shoulder to shoulder with institutions featured in the QS World University Rankings.

We are relentlessly investing in research, academic development, and employability, positioning ourselves to achieve a ranking in the QS World University Rankings within the next three years.

WORLD CLASS DISTINCTION

One of Only 24 QS 5 Stars Plus Universities Worldwide

The QS Stars rating system is operated by the QS Intelligence Unit, the same independent compiler of the **QS World University Rankings since 2004**.

This system evaluates universities across various important performance indicators set against pre-established international standards. By covering a broader range of criteria than any world ranking exercise, QS Stars highlights both the excellence and diversity of the rated institutions.

SEGi University proudly stands among the world's elite 24 institutions to earn the QS 5 Stars Plus rating. This significant milestone underscores our exceptional performance and esteemed position in the QS World University Rankings.

The QS Stars™ rating system has been operated by the QS Intelligence Unit, the independent compiler of the QS World University Rankings® since 2004. The system evaluates universities across various important performance indicators as set against pre-established international standards. By covering a broader range of criteria than any world ranking exercise, QS Stars™ shines a light on both the excellence and the diversity of the rated institution.

The QS World University Rankings, established by Quacquarelli Symonds in 2004, evaluate global universities based on academic and employer reputation, faculty/student ratio, research citations, and international faculty and student ratios. Widely respected, these rankings provide valuable insights into the academic quality, research impact, and global appeal of institutions, aiding prospective students and educators in making informed decisions.

The Times Higher Education (THE) World University Rankings, established in 2004, evaluate universities globally based on teaching, research, citations, industry income, and international outlook. These rankings provide comprehensive insights into a university's learning environment, research output, global influence, and industry engagement, helping students, academics, and policymakers make informed decisions about higher education.

The Complete University Guide is an annual ranking of UK universities that helps prospective students make informed decisions. It evaluates institutions based on entry standards, student satisfaction, research quality and intensity, graduate prospects, student-staff ratio, academic services and facilities spend, good honours rates, and degree completion rates. This comprehensive assessment provides detailed insights into university performance.
